

Dear Friends & Partners,

Tara and I have just returned from our trip to South Korea. It was a great time as God continues to be faithful in all that He has promised to do in us and through us.

Upon our arrival into Incheon Airport we were greeted by the church and taken to our own apartment. It was on the 22nd floor in a high rise apartment building, which is about one hour outside the city of Seoul; just a stone throw from the border of North Korea. It was beyond cold, but we endured to the end.

This was our second trip to South Korea and we have already been invited back next year for 2007. The church continues to grow and 45% are all young people under the age of 25. The hunger that we saw was unprecedented as hundreds of lives were changed and the people of that nation left the conference different than the way they came.

We invaded their culture with a fresh fire that is needed, and brought the presence of God that touched everyone in the church. The anointing on my life continues to grow and mature in every area. The excitement that we all have is beginning to bubble over as we all know a new season is on the horizon.

The church in Korea is bursting at the seams and like many, they need land and a new building. **I have learned over the years that when God gets involved in your life, great increase will occur almost overnight. God is a God of increase!** Whatever God ordains, touches or calls you to do, it will grow and if it is not growing then one of two things are happening. It is either sick, or it is not of God. If it is sick, then it can be healed, but if it is not of God, then you will continue to fight a battle that will never bear eternal fruit.

Several months ago I was approached by the Orange County Register who desired to do an article on "The Genesis Project". It is the largest newspaper in Orange County touching millions through local distribution and the Internet. We were all excited, as we knew in our heart of hearts we were on the threshold of major breakthrough. The most

exciting thing was our ministry never called the newspaper! Individuals and people who saw and experienced our fruit firsthand did all this publicity.

As our local food outreach drew near we were informed that the newspaper was coming to do a story on "The Genesis Project". The reporter and photographer soon approached me and they asked my permission to invade our outreach and shoot the story. I agreed to meet with them after to discuss any questions they might have.

Well, after the outreach had ended Tara and I were interviewed for about three hours. We were able to give them the entire testimony of myself, how the ministry began, how Tara and I met, and where we are going from here. It was simply awesome! The reporter turned to me in complete awe and said, "I CAN NOT BELIEVE THAT WE HAVE NOT FOUND YOU BEFORE THIS!" "THIS IS ABSOLUTELY INCREDIBLE!" I agreed.

A few weeks had gone by and the paper and some top officials in the corporate office called me. The article was supposed to run in the latter part of March, but they asked my permission to run the article ON EASTER SUNDAY MORNING. They informed me that Easter Sunday morning was the number one day for the paper to be read. No other day was the paper more popular than on Easter Sunday.

I was excited and I knew with all sincerity that the hand of God was heavy upon us! I agreed to postpone the article for a few weeks, which excited our expectations even more. Our faith was boiling over because we knew in our hearts that NOW WAS THE TIME.

We all awoke on Easter Sunday morning to find the biggest miracle of all. The Orange County Register had put us on the front page. Not only did they put our story on the front page, but also they gave us two full pages in the "A" section on pages four and five. We were all blown away!

Shortly after the article ran, phone calls and emails began to come in from all over Orange County. People were offering their time, their talent and their treasure to us. A 50 thousand square foot warehouse has been available to us for free storage of pallets of product. Lawyers are offering free legal work on our behalf. Other organizations are putting our website all over the Internet. Others have approached me in Starbucks (which I call the House of the Lord) to say they read the article and were impressed and desired to get involved. Even while driving through the streets of Irvine people were waving at me. I have never seen these people in my life, yet they know who we are.

I said all that to say this...GOD WAS GLORIFIED IN ALL THAT WE DID AND DO; NOT JASON!

In my life I have seen many scenarios come forth. I have seen great works that were God ordained but struggled because there were wounds that needed to be healed. I have seen people in the body of Christ use their own strength and human wisdom and do good works, but they were not God works. I have seen several ministries excel in the things of God because they obeyed God in every area of their ministry, and I have seen Christians constantly fail in everything they try to do.

If you have been in ministry for any length of time you will get a great understanding that your wisdom, your strength, your education, your good intentions DO NOT MEAN ANYTHING TO GOD! THE WISDOM OF THIS WORLD IS FOOLISHNESS TO GOD! So many times we implement social programs that originate from human thought thinking they will change our circumstances and our lives; they will not.

Over the last several years I have asked myself many questions as to why so many things happen the way they do. Let me give you an example. Why are so many churches, ministries and organizations operating on shoestring budgets? Why is there no power in the churches of America? Where are the miracles, the true miracles? Why must I experience the miracles overseas in other nations, BUT NOT HERE IN AMERICA? Why do so many Christians love this present world and really place no value in the next? Why do Christians read the Word of God, but most have a surface understanding? Why are comfort, complacency and indifference so hard to get out of people's lives? The list goes on and on and on!

Several years ago I started ministry school with 120 on fire people that were set on changing their generation. Today, there are a hand full of us left who have kept the faith, enduring through the testing and trials. We have not compromised the call on our lives and have been quite unpopular at times. So many have fallen by the wayside, lost the passion and have settled back into the world. Some never left the world, but risked the chance that God would allow them to have one foot in the world and one foot in the church.

When I became a Christian in 1994 I was completely changed and transformed in a twinkling of an eye, almost overnight I was a different human being. I remember saying, "What happened to the old Jason I used to know?" I was on fire, changed and ready for a bright future but there was only one problem- I was ignorant! I needed to be taught the Word of God and learn how to implement that word in my everyday life.

I made the mistake of thinking after living for Jason for the past 25 years that I would jump into my destiny in a matter of months. Nothing is farther from the truth. What God had to do was to get the Jason out of Jason! I had too much of the worldly thinking and worldly ways inside of me. I needed to be refined in many areas of my life so that I could go to that place I was called to go. This is where many of my questions began to be answered.

The process by which God refines us is not always pleasant and is ALWAYS painful. Once a person gets saved and their life really begins to change they need to understand the process is not like a fast food experience. Let me also state because we are living in the end times and this dispensation is almost at the end, God is doing a quick work, BUT HE IS DOING A THOROUGH WORK! There are no short cuts to the anointing and all short cuts will cut you short!

The process by which we are transformed is up to us. The more that you yield your being to the power of the Holy Spirit, the faster He can work from the inside out. Remember that ALL PERMANENT CHANGE COMES FROM WITHIN! IT IS NEVER AN OVERNIGHT FIX.

Let me explain a little bit more. I have circled the globe about 24 times. I have set foot in about 78 nations of the earth, and preached all over the world. I have been on television, in the newspapers and experienced things that would take ten men to do. I literally saw the world before I was 30 years of age. In saying all of that, just now, ten years later, the blade of grass is just breaking ground. Our tree (our ministry) is just seeing the first fruits that God had promised me several years ago. The foundation has been laid, and God is ready to begin building on it!

It has not come overnight! It has not come quickly! It has taken time for my thinking to change, for JASON TO CHANGE! I am decreasing and the new man, the new nature is increasing. That is why Ephesians says in the sixth chapter... "After you have done all, STAND". That simply means that after you have done everything you know to do in the natural, clamp down and endure the storms. Through faith and patience one inherits the promises of God.

This is where so many Christians miss it. They get to experience the blessings of God to a certain point and they deceive themselves into thinking the ride will be like this all their life! That they can serve God and serve their flesh at the same time...AND THEY CANNOT!

We live in a time when the average person retires and plans their life around the benefits they can receive to ensure their future security. Their life consists of the job they do, the car they drive, the house they own and whether or not they have medical and dental coverage! Sad to say this is the truth. Not many actually pick up the cross on a daily basis and fight the good fight of faith. The cost is too high, and the price tag to the power of God does not come through the blessings, it comes through THE DEATH OF SELF!

I presently live in a city that is drunk in comfort! Most are caught in a bubble and do not live in reality. I can tell you Irvine is not reality for the rest of the world. Once their comfortable lifestyle is shaken, one will see the true colors come forth. It is the same

way with Christians who live in America. Most have never seen the power of God in manifestation, let alone had it flow through them to another.

We are living in the most exciting time in human history! Never before have we seen the things that are happening in this generation. I want to ask all of you to keep Tara and I in your prayers. We have just celebrated our one-year anniversary and in just a few weeks I will be back into the heart of the Middle East. I will be going to Syria and Jordan. This will be my fourth time to Syria and my first time to Jordan. Word is spreading throughout the Middle East about our ministry as Qatar and Bahrain have opened and I will be there too in September.

Syria is a hot bed right now for Americans and Christians and I am going right in the middle of it. The door to Jordan has now fully opened and I am stepping through never looking back.

I want to thank all of you who have prayed for us and have given financially. I am just an extension of your prayers and money to bear your fruit in the most dangerous places on the earth. I would not be able to continue my schedule without your help. Traveling to the nations and feeding the poor is what I live for!

If you are interested in becoming a partner, please let us know, write us, email us or phone us at any time!

See you next time!

"...Until all are fed!"

Faithfully,

Jason Hamlin
